EXPERIENCE & PROJECTS

Freelancing Project– Dubai–based Immigration Company

- **Project Description & Overview**
Designed and developed a professional and responsive website for a Dubai–based immigration company, focusing on user experience and performance to represent their brand and services effectively.
- **Technologies Used**
Backend: Express, Node.js, Postgres, Prisma Orms, TypeScript
Frontend: TypeScript, Next.js, Tailwind css, Swiper.js
Authentication: used JWT and middlewares for authentication of backend routes
Deployment: Used AWS to Deploy the Frontend & Backend
- **Live Url :** <https://atlanticglobalvisa.com/>

Portfolio Web Application

- **Technologies Used**
Frontend: TypeScript, React.js, Tailwind css, React Hooks, React Routers, Framer–motion, Aceternity–ui
- **Live Url :** [Portfolio Website](#)

Money Exchange web Application

- **Project Description & Overview**
It is a Money Exchange web Application in which we can login and signup and create user accounts and Add money to our app wallet and also can send Money from wallet to wallet. For Adding Money From Bank to Wallet. I have implemented another Backend which imitates a Bank web Hook server which process Transaction of Adding Money From our Bank to our app wallet .
- **Technologies Used**
Backend: Turborepos, Express.js, Node.js, Postgres, Prisma Orms, TypeScript
Frontend: Turborepos, TypeScript, Next.js, Tailwind css, Hooks,
Authentication: Used Next Auth for Authentication

SKILLS

- Node.js
- Express.js
- Hono
- React.js
- Next.js
- TypeScript, JavaScript
- Postgres
- MongoDB
- Prisma Orms
- Git & Github
- Linux
- AWS
- Full Stack
- Mern Stack
- Tailwind Css
- Docker
- Postman
- Turborepo
- Redis
- RabbitMQ

EDUCATION

Sewa Dal Public
School, Sangrur — 10th & 12th

Punjabi University Patiala
BCA — 2023 Passout

Mern, Full Stack Course
Still ongoing

LANGUAGES

English, Hindi, Punjabi
