9988851618 | [Portfolio](#) | [Email](#) | [Github](#)

## Education

Punjabi University Patiala | Patiala, Punjab | Bachelor of Computer Applications (**BCA**) | 2020 – 2023

## Experience

### Full Stack Developer (Freelance) | Remote

Independent Contractor - National & International Clients | 2024 – Present

- Architected and deployed scalable web applications for clients across multiple countries, delivering end-to-end solutions that enhanced digital presence and drove business growth
- Developed RESTful APIs using Node.js, Express, and TypeScript with PostgreSQL integration via Prisma ORM, implementing JWT authentication and role-based access control for secure backend routes
- Deployed full-stack applications on AWS and Vercel infrastructure for high availability and optimal performance

## Projects

Hotel Booking Platform | Next.js, Node.js, Express, TypeScript, Tailwind CSS, Affoda API [LINK](#)

- Developed a full-stack hotel booking platform for an international client, integrating Affoda API to fetch real-time hotel data, pricing, and availability across multiple locations consultancy, resulting in enhanced digital presence and client acquisition capabilities
- Built secure backend infrastructure with Node.js and Express, implementing JWT-based authentication for protected routes and session management with secure login/logout functionality
- Implemented JWT-based authentication middleware and role-based access control (RBAC) to secure backend routes and protect sensitive client data
- Deployed frontend on Vercel edge servers for global CDN distribution and backend services on AWS for scalability

Money Exchange Web Application | Node.js, Express, PostgreSQL, Next.js, Prisma [LINK](#)

- Built a full-stack fintech application with Turborepo monorepo architecture, enabling users to manage digital wallets and process secure transactions
- Engineered microservices backend simulating bank webhook integration for real-time transaction processing between bank accounts and application wallets
- Implemented secure authentication using Next-Auth with session management and designed optimized PostgreSQL database schema using Prisma ORM

## Open source contributions

- Passionate about contributing to open-source projects and collaborating with the developer community. Actively maintaining and contributing to various repositories focusing on full-stack JavaScript/TypeScript ecosystems. Check out my contributions on [GitHub](#).

My personal Portfolio [LINK](#) Here you can find my other projects and find more about me

## Technical Skills

**Frontend:** React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3, Framer Motion

**Backend:** Node.js, Express.js, Hono, Turborepo, Prisma ORM, REST APIs, JWT Authentication

**DevOps & Tools:** Git, GitHub, Docker, AWS, EC2, S3, Vercel, Linux, Postman, RabbitMQ

**Database:** PostgreSQL, MongoDB, Redis
